

Family Tree Photoshop Rotation #1 Project #3 Principles of Technology 1

Assignment:

- Your assignment is to create a Digital Family Tree. This will include pictures of each family member from your siblings (including yourself) up to your grandparents on both sides.
- It must have the following family members included:
 - ALL Siblings (includes $\frac{1}{2}$ & steps)
 - Your parents
 - Your mother's parents, and your father's parents
- Each family member's face must be placed in a frame.
- Any additional family members may be subject to extra credit.

Due Date:

- You will have 5 full class periods to complete this assignment. The due date is listed below.
- **Due Thursday, Sept 18th (Friday, Sept. 19th if your class does not meet)**
- The assignment is due by 2:45 on the Due Date. Anything turned in after that is late, and will have 10% deducted for each day late (including days that class does not meet).

How to turn it in:

- Rename your final picture with your name in the file name and the words family tree.
- Fill out the Family Tree Template, include all required parts, including a small picture of your tree and a hyperlink to your final picture
- Place a copy of the Family Tree Template in the PT Folder for your class period. The template should have your name in the file name.

Grading Rubric

	10	5	0
Family Pictures 30047 30048 30049 30115 30116	All required family members are included. Pictures are resized appropriately, and all faces can be viewed equally well. Family members have names included.	Some required family members are missing. Pictures are not resized appropriately, and some faces can not be seen very well. Some family member's names are missing.	Several required family members are missing. Pictures are obviously different sizes, and some faces can not be seen very well. Family member's names are missing.
Frames 30078	Each family member's face is framed. Frames look good, and add to the overall effect of the family tree.	Not all family members' faces are framed. Frames look too big or cut off part of face, and distract from the overall effect of the picture.	Frames are not used.
Tree 30078	N/A	Includes a picture of a tree as a background. Tree fits with family pictures.	Does not include picture of tree, or picture of tree distracts from the project as a whole.
Picture Size 30045 30085-95	Final Family Tree is saved as a JPEG. Its Pixel dimensions should be around 1200 pixels wide. All other family photos should fit neatly in this space.	Final Family Tree is <u>not</u> saved as a JPEG. Its Pixel dimensions are less than 1000 wide or greater than 1400 pixels wide. Not all family photos fit neatly in this space. Tree looks messy due to inappropriate picture re-sizing.	Final Family Tree is <u>not</u> saved as a JPEG. Its Pixel dimensions are less than 1000 wide or greater than 1400 pixels wide. Not all family photos fit neatly in this space. Tree is incomplete, or picture file does not open correctly.
Template	Template is completed with all required elements present. Links work, and pictures and screen captures are re-sized appropriately.	Template is partially completed with several required elements missing. Links do not work, and pictures and screen captures are so large the file takes a while to open.	Template is incomplete with several required elements missing. Links are missing, and pictures and screen captures are missing or not viewable.
Folder Clean-Up	N/A	Template includes screen captures of your PT folder contents, and one of your Photoshop Folder. All items should be organized, with only picture files left that you need for the project. All others are deleted.	Does not include one or more of the screen captures, or folders are disorganized, and extraneous files are left unorganized.
