PT 1 and PT 2 Experiences

PT 1

- I worked with Adobe Photoshop.
- In Adobe Photoshop I had to put a lot of images together and make a totally new image.
- I worked with Adobe Flash.
- In Adobe Flash, I was assigned to make a short video and then present it at the end of the class.
- I worked with Microsoft Publisher.
- My assignment in publisher was to make a website that shows people what each part of the computer is used for.
- I worked with Microsoft Excel.
- I had to calculate different things like adding, subtracting, multiplying, and dividing a bunch of numbers.

PT 2

- I worked with Parallax inc.
- In parallax inc. we had to put together a robot and then put codes into it to be ready go in a wrestling match.
- I worked with Adobe Photoshop
- I had to choose a project on my own so I chose Photoshop to make a logo for Caissa.
- I had to make a music with different sounds and any kind of music but I forgot the program that I used.

PT 2

Logo # 1 It failed

Logo # 2 It work
